Technology Acceptable Use Policy

Please read this document carefully before signing.

Schools within the Diocese of Columbus have implemented voice, data, and video electronic communication systems that will allow unprecedented educational opportunities for students and staff to communicate, learn, and publish information. These network resources provide students and staff access to electronic resources and are to be used for educational purposes. Communication over the diocesan network is not to be considered private. Network supervision and maintenance may require review and inspection of network activity.

TERMS AND CONDITIONS FOR INTERNET ACCESS AND USE:

The use of the Internet must be in support of education or research and adhere to the educational goals and objectives of the Diocese of Columbus Department of Education. While some material accessible via the Internet may contain information that is inappropriate or inaccurate, the Department believes that the benefits to students exceed the disadvantages. Ultimately, parents and guardians of minors are responsible for setting and conveying the standards that their children should follow when using network resources.

Acceptable Use of the Internet:

Students are responsible for appropriate behavior when using the Internet just as they are in a classroom or hallway. Students are expected to abide by the generally accepted rules of network etiquette:
